This report was prepared in accordance with the scope of services set out in the contract between Geosyntec Consultants Pty Ltd (ABN 23 154 745 525) and the client.

Geosyntec Consultants Pty Ltd ABN 23 154 745 525 www.geosyntec.com.au

### **Executive Summary**

Geosyntec Consultants Pty Ltd (Geosyntec) was engaged by JWD Construction (JWD) the "Client" to conduct an Independent Environmental Audit (IEA) of the development site, located on 89 John Whiteway Drive, Gosford NSW 2250 ('the site'). The development is also referred to as Rumba Lara. JWD is the developer and Deicorp is the appointed civil /building contractor.

The boundary of the site covered by this IEA is provided in Appendix A, and occupies an area of approximately 2.2 ha.

This audit was the third IEA of the construction phase for the project. The purpose of the IEA is to provide an independent and objective assessment of the environmental performance and compliance of the construction phase of the approved development at the site.

The overall objective of the Audit is to confirm compliance with Independent Environmental Audit Conditions D35 to D40 Conditions C35 to C40 of the NSW Department of Planning and Environment (DPE) State Significant Development Approval (SSD 10321 Mod 2) ('SSD Approval') issued 3 June 2022.

The IEA was conducted in accordance with the NSW Government (May 2020) Independent Audit Post Approval Requirements. The site inspection was conducted on 19 October 2023.

A total of 173 items were assessed as part of SSD consent conditions. A summary of the findings is provided as follows:

- Number of compliances = 85 items
- Number of non-compliances = 2 items
- Number of non-triggered = 86 items

In addition, assessment of 53 items with regard to the implementation and compliance with the site's construction environmental management plans was conducted. A summary of the findings is provided as follows:

- Number of compliances = 41 items
- Number of non-compliances = 2 item
- Number of non-triggered = 10 items

A discussion of IEA findings is presented in this document. The Auditor also provides recommendations on opportunities for improvement.

### Glossary

Term	Description	
Audit	Systematic, independent and documented process for obtaining objective evidence and evaluating it objectively to determine the extent to which the audit criteria are fulfilled (ISO 19011:2018). For the purpose of this report, Audit refers to an Independent Environmental Audit in accordance with the NSW Government (May 2020) Independent Audit Post Approval Requirements	
Audit criteria	Set of requirements used as a reference against which objective evidence is compared.	
Audit evidence	Records, statements of fact or other information which are relevant to the audit criteria and verifiable.	
Audit findings	Results of the evaluation of the collected audit evidence against audit criteria.	
Audit conclusion	Outcome of an Audit after consideration of the Audit objectives and all audit findings.	
Auditee	Organisation being audited.	
Audit Program	Audit Schedule and Audit Table as defined in NSW Government (June 2020) prepared by Geosyntec prior to the commencement of the Audit.	
Auditor	Person(s) who conduct(s) the Audit, as defined in this report. Lead Auditor and Auditor in Training	
Audit Team	One or more persons conducting the Audit, supported if needed by technical experts.	
Authorised Reporting Officer	A director, executive, employee or office of the proponent who is authorised by the proponent to submit formal reporting on the proponent's behalf.	
Competence	Ability to apply knowledge and skills to achieve intended results.	
Compliant	The Auditor has obtained sufficient evidence to demonstrate that the specific item being audited has been satisfied to the objective of the Audit.	
CSSI	Critical State Significant Infrastructure	
DoEE	The Commonwealth Department of the Environment and Energy administering the EPBC Act, and includes the Minister for the DoEE	
DPE	NSW Department of Planning and Environment (previously DPIE)	
DPIE	NSW Department of Planning, Industry and Environment	
EIS	Environmental Impact Statement	
Environmental Representative (ER)	A suitably qualified and experienced person independent of project design and construction personnel employed for the duration of Construction, who will be the principal point of advice in relation to all questions and complaints concerning environmental performance.	
EP&A Act	NSW Environmental Planning and Assessment Act 1979	
EPBC Act	Commonwealth Environment Protection and Biodiversity Conservation Act 1999	
EPL	NSW Environment Protection Licence under the Protection of the Environment Operations Act 1997	
Federal CoA	Federal DoEE Condition of Approval	
Incident	An occurrence or set of circumstances that causes, or threatens to cause material harm and which may or may not be or cause a non-compliance.	
Minister	Minister of DPE or delegate.	
NSW CoA	NSW DPE Condition of Approval	
Non-compliant	The Auditor has not obtained sufficient evidence to demonstrate that the specific item being audited has been satisfied to the objective of the Audit.	
Not triggered	The specific item has not been activated at the time of the Audit and therefore, the Audit was not completed for the item.	
Planning Secretary	The Planning secretary under the EP&A Act or nominee.	

Term	Description	
PoEO Act	NSW Protection of the Environment Operations Act 1997	
Post approval document	A document required by conditions of consent, including Environmental Management Plans and Sub-plans.	
Predicted impact	Predicted impacts described in the Environmental Impact Assessment documents that comprise the approved project (if available).	
Project	As per definition in Section 1	
Proponent	The person or entity that is referred to as the proponent in an approval or the applicant in a consent or any other person carrying out any part of the development to which the approval or consent applies.	
Risk	Effect of uncertainty.	
Site	As per definition in Section 1	
State significant projects	Means any of the following in accordance with the EP&A Act: <ul> <li>State significant development projects</li> </ul>	
	<ul> <li>State significant infrastructure projects, including critical State significant infrastructure projects</li> </ul>	
	Transitional Part 3A projects	
	<ul> <li>Part 4 projects for which the Minister is the consent authority</li> </ul>	

### **1** Introduction

Geosyntec Consultants Pty Ltd (Geosyntec) was engaged by JWD Construction (JWD) (the "Client") to conduct an Independent Environmental Audit (IEA) of the development site, located on 89 John Whiteway Drive, Gosford NSW 2250 ('the site'). The development is also referred to as Rumba Lara. JWD is the developer for the development and Deicorp is the appointed civil /building contractor.

The boundary of the site covered by this IEA is provided in Appendix A and occupies an area of approximately 2.2 ha.

#### 1.1 Background

The development site is located within medium to high density residential area. Prior to the development, the property was an unoccupied area with some vegetated areas. The site is legally identified as Lot 100 in DP 1075037 and Lot 1 in DP 45551.

The proposed development comprises the construction of a residential development comprising four residential flat buildings to accommodate 188 dwellings, basement car parking, associated landscaping, and public domain works.

#### 1.2 Audit Team

...

The Audit team comprised the following Geosyntec personnel:

Table	1.1.	Audit	Team
-------	------	-------	------

....

Name	Role
Dr Cheryl Halim	Lead Environmental Auditor
	NSW EPA Accredited Site Auditor (under Contaminated Land Management Act) (No. 2201)
	Exemplar Global Lead Auditor (Environmental Management Systems Auditor) (C-464022)
	BE (Chemical)
	PhD (Chemical Engineering)
Cissillia Young	Auditor
	BE (Chemical)
	PhD (Chemical Engineering)

The Audit Team Declaration is provided in Appendix B.

#### 1.3 Purpose and Objective of Audit

The purpose of the IEA is to provide an independent and objective assessment of the environmental performance and compliance status of the construction phase of the approved development. This audit was the third Construction Audit, conducted within 26 weeks of the previous construction audit (which was completed on 22 June 2023).

The construction of the project is anticipated to be 24 months, with completion targeted by September 2024.

The overall objective of the Audit is to confirm compliance with Independent Environmental Audit Conditions D35 to D40 of the NSW Department of Planning and Environment (DPE) State Significant Development Approval (SSD 10321) ('SSD Approval') and its subsequent modifications, which state:

Condition No.	Requirement		
D35	Proposed independent auditors must be agreed to in writing by the Planning Secretary prior to the preparation of an Independent Audit Program or commencement of an Independent Audit.		
D36	Independent Audits of the development must be conducted and carried out in accordance with the Independent Audit Post Approval Requirements (DPIE 2020).		
D37 The Planning Secretary may require the initial and subsequent Independent Audits to be undertaken at different times to those agreed to above, upon giving at least four weeks applicant of the date or timing upon which the audit must be commenced.			
	In accordance with the specific requirements in the Independent Audit Post Approval Requirements (DPIE 2020), the Applicant must:		
D38	<ul> <li>a. review and respond to each Independent Audit Report prepared under condition D36 and D37 of this consent;</li> </ul>		
	b. submit the response to the Planning Secretary and the Certifier; and		
	<ul> <li>c. make each Independent Audit Report and response to it publicly available within 60 days of submission to the Planning Secretary.</li> </ul>		
D39	Independent Audit Reports and the Applicant's response to audit findings must be submitted to the Planning Secretary within 2 months of undertaking the independent audit site inspection as outlined in the Independent Audit Post Approval Requirements (DPIE 2020).		
D40	Notwithstanding the requirements of the Independent Audit Post Approval Requirements (DPIE 2020), the Planning Secretary may approve a request for ongoing independent operational audits to be ceased, where it has been demonstrated to the Planning Secretary's satisfaction that an audit has demonstrated operational compliance.		

This Independent Environment Audit was conducted in accordance with the requirements of the NSW Government (May 2020) Independent Audit Post Approval Requirements (IAPAR).

#### 1.4 Audit Scope

#### 1.4.1 Audit Scope (Physical and Temporal Boundaries)

The physical and temporal boundaries of the current IEA are as follows:

- Physical boundary: The site is approximately 2.2Ha and located within Lot 100 in DP 1075037 and Lot 1 in DP 45551. The boundary of this Audit is shown in the site plan included in Appendix A. The site is currently a construction site. The Audit also included observation of the general surrounding area.
- Temporal boundary of the Audit is for the duration of the construction phase. The duration for the current Audit is from the completion of the previous audit (22 June 2023) to the issue of this final report.

#### 1.4.2 Audit Criteria (Audit Works)

The Audit criteria are identified by the conditions for SSD 10321 and the requirements outlined in the NSW Government (May 2020) Independent Audit Post Approval Requirements.

The Audit Table (Appendix F) presents the requirements to evaluate during the Audit including:

• An assessment of compliance with the Conditions of Consent and other relevant approvals and licenses.

- An assessment of environmental performance of the construction site, including:
  - Assessment of actual impacts compared to predicted impacts documented in the Environmental Impact Statement (EIS) and Return to Submission (RTS) documents.
  - Assessment of any incidents, non-compliances and complaints that have occurred on the project.
  - Assessment of any feedback received by DPE, other agencies and stakeholders (as appropriate)
  - Assessment of performance of the development having regard to agency policy and any particular environmental issues identified through consultation carried out when developing the Audit scope.
- A high-level assessment of the adequacy of the Project's construction environmental management plan (CEMP) and sub plans and their implementation.

#### 1.5 Audit Period

This Audit comprises the third IEA for the site and covers a review period of environmental performance from the completion of the previous construction audit (22 June 2022), the time of the site inspection (19 October 2023), and to the issue of this final report (13 December 2023).

#### **1.6 Environmental Representative**

Robert Longo from Deicorp was the appointed Environmental Representative, who assisted Geosyntec during this Audit process.

Peter Dooley (Site Manager) from Deicorp also assisted Geosyntec during the Audit process.

### 2 Audit Methodology

#### 2.1 Auditor Notification to DPE

The Environmental Audit team was notified and approved by DPE in a letter dated 9 October 2023 and 11 October 2023, respectively. The correspondence is attached in Appendix C.

#### 2.2 Development of Audit Scope – Independent Audit Program

The Audit table (Appendix F) provides the Audit scope, as listed in Section 1.4 of this report.

#### 2.3 Site Audit Process

The Audit comprised:

- 1. Opening meeting
- 2. Compliance to Audit Program
- 3. Review of evidence of consultation with identified stakeholders
- 4. Closing meeting
- 5. Issue of Draft Independent Environment Audit report
- 6. Review of additional information (if any)
- 7. Finalisation of Independent Environment Audit report

#### 2.3.1 Opening Meeting

The opening meeting was conducted onsite on 19 October 2023. The agenda for the meeting and the record of attendees is provided in Appendix D.

#### 2.3.2 Sources of Information to Assess Compliance to Audit Program

Sources of information reviewed to assess compliance to the audit program included:

- Review of project records, documentation, and reports.
- Interview with key construction project personnel (available during site inspection) and post site inspection follow-up.
- Site walkover and inspection for implementation of environmental controls.
- Review of complaints registers for the project.

#### 2.3.3 Closing Meeting

The closing meeting was held on 30 October 2023. It was agreed that the closing meeting could be conducted via email correspondence from Geosyntec, which provided an overview of key findings and timing for the Audit Report. The closing meeting email provided preliminary findings of the Audit.

#### 2.3.4 Issue of Independent Environment Audit Report

The Draft Independent Environmental Audit Report was issued on 8 December 2023.

#### 2.3.5 Finalisation of Independent Environment Audit Report

The IEA report was finalised on 18 December 2023 with the following changes made to the Draft report:

- SSD 10321 Condition B5 (Geosyntec item G34) is now considered compliant because the evidence of submission of Construction Certificates (CC2A and CC2B) to the Planning Secretary was provided following issue of the Draft report.
- SSD 10321 Condition B27 (Geosyntec item G56) is now considered compliant because the evidence of submission of operational stormwater management system to the Certifier was provided following issue of the Draft report.
- SSD 10321 Condition C3 (Geosyntec item G62) is considered compliant because all information listed in Condition C3 has been updated in the project website following issue of the draft report.

#### 2.4 Interviews

Interviews with construction project personnel conducted on 19 October 2023. The following personnel were interviewed:

- Robert Longo (Deicorp Project Manager, Environmental Representative for this Audit)
- Peter Dooley (Deicorp Site Manager)

#### 2.5 Site Inspection

The site inspection was conducted by Cheryl Halim and Cissillia Young on 19 October 2023, accompanied by the Site Manager (Peter Dooley) and Project Manager (Rob Longo). The site inspection comprised a walkover of the construction footprint, including the perimeter of the site.

#### 2.6 Consultation

Geosyntec conducted consultation with DPE and Central Coast Council (Council) via email. Evidence of consultation is provided in Appendix C.

The outcome of the consultation is provided in Section 3.8.

#### 2.7 Compliance Status Descriptors

The findings of the Audit have been divided into the following categories:

Assessment	Criteria	
Compliant	Sufficient verifiable evidence is available to demonstrate that all elements of the requirement have been met	
Non-Compliant One or more specific elements of the conditions or requirements have not beer		
Not-Triggered A requirement has an activation of timing trigger that has not been met at the audit, therefore compliance is not relevant. Items not considered for Independent Environment Audit have also been recorded as "Non-Triggered."		

#### Table 2.1. Compliance Evaluation

### 3 Audit Findings

#### 3.1 Approvals and Documents Audited

The following documents were audited:

#### **Table 3.1. Audited Documents**

SSD Reference	Document Details
Environmental Impact Statement (EIS)	Ethos Urban (26 March 2020) Environmental Impact Statement, 89 John Whiteway Drive, Gosford SSD 10321
SSD 10321 Development Consent	SSD 10321 Mod 2 dated 3 June 2022.
C6 Community Communication Strategy	Barker Ryan Stewart (6 June 2022), Community Communication Strategy, 89 John Whiteway Drive, Gosford
C13 Construction Environmental Management Plan	DEICORP (29 November 2022) Construction Environmental Management Plan (CEMP), 87-89 John Whiteway Drive Gosford
C15 Construction Traffic and Pedestrian Management Plan	Barker Ryan Stewart (11 May 2023), Construction Traffic Pedestrian Management Plan (CTPMP), 89 John Whiteway Drive, Gosford.
C16 Construction Noise and Vibration Management Plan	Koikas Acoustic (19 October 2022), Construction Noise and Vibration Management Plan, 89 John Whiteway Drive, Gosford
C17 Construction Soil and Water Management Plan	Barker Ryan Stewart (30 March 2023), Soil and Water Management Plan, 89 John Whiteway Drive, Gosford.
C18 Aboriginal Cultural Heritage Management Plan	RPS (20 May 2022), Aboriginal Cultural Heritage Management Plan, 89 John Whiteway Drive, Gosford.
C19 Biodiversity Management Sub-Plan	AEP (28 November 2022), Biodiversity Management Sub-Plan 89 John Whiteway Drive, Gosford, NSW 2250
C20 Driver Code of Conduct	Deicorp (17 August 2022) Driver's Code of Conduct, 87-89 John Whiteway Drive, Gosford, NSW 2250.

The Auditor was also provided with Barker Ryan Stewart (22 February 2022) Waste Management Plan, which was reviewed.

Other supporting documents reviewed are provided in the Audit Table in Appendix F.

#### 3.2 Summary of Assessment of Compliance

A total of 173 items were assessed as part of SSD consent conditions. A summary of the findings is provided as follows:

- Number of compliances = 85 items
- Number of non-compliances = 2 items
- Number of non-triggered = 86 items

In addition, assessment of 53 items with regard to the implementation and compliance with the site's construction environmental management plans was conducted. A summary of the findings is provided as follows:

- Number of compliances = 41 items
- Number of non-compliances = 2 item
- Number of non-triggered = 10 items

#### 3.3 Agency Notices, Orders, Penalty Notices or Prosecutions During Audit Period

Deicorp advised that there are no agency notices, orders, penalty notices or prosecutions were received during the Audit period.

DPE conveyed one complaints during the Audit period. This has been documented as in the complaint records, which are reviewed in Section 3.9

#### 3.4 Discussion of Non-Compliances

Details of the non-compliances to the SSD consent conditions identified are provided in Table 3.2.

#### Table 3.2. Non-Compliances to SSD Consent Conditions

Geosynte ID	c Document	SSD Condition No.	Details of Non-Compliance	Recommendations
G28	SSD	A28	This condition is considered as non- compliant due to of the following:	Strategies, plans and programs under the development consent
			• Evidence of revision of Strategies, plans and programs within three months of the submission of the second IEA to DPE (Final report dated 22 June 2023) was unable to be sighted.	must be reviewed within 3 months of submission of this IEA Report or any other items listed in Section A28 of the consent conditions. Evidence of this should be documented. When a review of the plans is being
			<ul> <li>Written notification to the Planning Secretary and the Certifier when a review of the plans is being conducted was unable to be sighted.</li> </ul>	conducted, Planning Secretary should be notified in writing.
G75	SSD	C16	This non-compliance has been recorded as a non-compliance since the First Audit.	No recommendation was made, unless further advice is provided by DPE.
			The item is non-compliant as the strategy has not been prepared in consultation with community. However, it is noted that the noise consultant stated that they were unable to conduct community consultation with this project, which the Auditor acknowledged. Interview with Deicorp indicated that conducting consultation with communities is problematic given there are some community members who are opposing the development.	

Geosyntec Document ID		Details of Non-Compliance	Recommendations	
G199	Community Communication Strategy	This item is considered as non-compliant as responses to 2 complaints were provided after 7 days of the complaint.	Initial response to complaints should be provided to the complainant in accordance to the requirement of the Community Communication Strategy (within 7 days of complaint). Follow up contact should be conducted within 7 days following resolution of complaints.	
G211	Construction Traffic and Pedestrian Management Sub Plan	This item is considered as non-compliant as evidence of communication to the adjoining properties on temporary traffic control measures was unable to be sighted.	Any temporary traffic control measures notification shall be provided to adjoining property owners 7 days prior to the implementation, aligned with the requirement in the Construction Traffic and Pedestrian Management Sub Plan.	

#### Table 3.3. Non-Compliances to CEMP and sub-plans

#### 3.5 Assessment from Previous Audit

An assessment of the recommendations made in the previous audit is provided below.

#### Table 3.4. Assessment of Previous Audits

Recommendation from Previous Audit	How The Recommendations Have Been Addressed	Auditor's Assessment
The CEMP and sub plans provided in the website should be kept up to date	The project website is sighted to display the most recent CEMP and its sub-plans.	The Auditor considers this item has been addressed, however noting that the latest Driver Code of Conduct should be uploaded to the website.
		Recommendation: The applicant must ensure that all information listed in Condition C3 be available on the project website and be kept up to date.
Site diary should include the commencement and conclusion time of construction activity not only site opening and closing time.	Sighted records of site diary, which stated site opening was at 7am.	While site diary did not include commencement and conclusion time, site diary indicated site opening is 7am.
		Recommendation: It would be prudent to include site closing time in the site diary.
Out of hours delivery should obtain relevant prior approval, unless Council deems otherwise with a written confirmation. Out-of-hours work should be notified to DPE as a non-compliance.	No out of hours delivery has occurred during the Audit period.	Not applicable for this current Audit.
Sufficient parking is provided onsite. Prior to provision of parking, a written approval by Council on use of public road for construction parking	About 40 car spaces are available in the basement carpark. Construction cars were still observed on the road.	More car spaces are available onsite, which address the previous recommendation.
should be sought.	Geosyntec sighted communications from Deicorp for their subcontractors to move cars.	Recommendation: More proactive communications should be provided to subcontractors not to park on the road as additional onsite parking becomes more available onsite.

Recommendation from Previous Audit	How The Recommendations Have Been Addressed	Auditor's Assessment
The effectiveness of dust mitigation should be continuously reviewed to minimise dust issue onsite and offsite.	Unacceptable dust was not observed at the site as the majority of the site is covered by building and pavement.	The Auditor considers this item has been addressed.
	The site entrance was paved and water hosing was observed at the time of the Audit.	
When migration of dust cannot be managed, the work should cease, and the effectiveness of mitigation measures must be evaluated before the	Unacceptable dust was not observed at the site as the majority of the site is covered by building and pavement.	The Auditor considers this item has been addressed.
work commences.	No complaint regarding dust has been recorded during the Audit period.	
The site inspection must include observation of sediment control in the stormwater drains to check if the drains appropriately protected from sediment	Sighted site diaries (2/8/2023, 18/10/2023) which included sediment control.	The Auditor considers this item has been addressed.
and the presence of sediment on the drain grate which requires mitigation.	Sighted Site Induction Program in Appendix A of the Safety Management Plan. The Appendix include SSD conditions and management plans.	
The road is periodically monitored throughout the day to ensure that construction vehicles have not resulted in sediment tracking on the road. Where evidence of sediment is observed, mitigation measures must be immediately implemented.	The road was observed to have minimal dust tracking from the site. Traffic controller was present throughout the day. Deicorp stated that they also conduct clean up of the road at the end of each day.	The Auditor considers this item has been addressed. Recommendation: Parking on unpaved road setbacks should be discouraged.
Environmental checklist is to be updated to include evidence of sediment in stormwater drain and condition of sediment control.	Deicorp stated that environmental checklist is no longer used as it was found to be ineffective. The site diary is now used to record inspection records.	The Auditor considers this item has been addressed.
Imported material and their analytical results must be inspected as it is received onsite to confirm that the material meets the classification and that it does not contain any evidence of contamination. Evidence of contamination includes anthropogenic materials in materials classified as VENM.	Deicorp stated that no additional imported material brought onto site during the Audit period.	Not relevant to the current Audit. Recommendation: Imported material documents must be provided to the contaminated land auditor to complete the contaminated land audit.
Material exceeding the concentrations presented in	Deicorp stated that no additional	Not relevant to the current Audit.
the Resource Recover Order must not be imported to the site.	imported material brought onto site during the Audit period.	Recommendation: Imported material documents must be provided to the contaminated land auditor to complete the contaminated land audit.
An environmental consultant must provide an assessment of the suitability of imported material prior to importation to the site.	Deicorp stated that no additional imported material brought onto site during the Audit period.	Not relevant to the current Audit. Recommendation: Imported material documents must be provided to the contaminated land auditor to complete the contaminated land audit.
A record of all complaints and action taken should be kept in file as per CEMP requirement. For record purposes, responses made by the Certifier to the complainant should also be provided for Deicorp.	Record of complaints and supporting information were reviewed by the Auditor.	The Auditor considers this item has been addressed.
Follow-up contact should be undertaken for each complaint, as required in the Community Communication Strategy.	Responses to the complainant were reviewed during the Audit period.	The Auditor considers this item has been addressed.
Waste Management Plan should:	Deicorp stated that they were not	The Auditor notes that given the
• Provide the waste classification requirement under NSW EPA (2014) Waste Classification Guidelines for soil waste. The waste classification must be conducted by a suitably qualified environmental consultant.	proposing to update the Waste Management Plan.	earthworks onsite have been largely completed, the previous recommendations would no longer provide added benefit for

#### **Recommendation from Previous Audit**

How The Recommendations Have Been Addressed

#### **Auditor's Assessment**

waste management practice onsite.

- Include details in Sections 8.4.6, 8.4.7 of the Trace Remedial Action Plan (RAP) on requirement for testing and material tracking.
- Provide details on disposal of liquid waste in accordance with Section 8.4.9 of the Trace RAP.
- Provide information of imported material in accordance with Section 8.4.8 of the Trace RAP. It is noted that the RAP only allows for the importation of certified VENM and does not allow importation of other material (e.g. recovered aggregate). Noting that there is a Contaminated Land Site Auditor for this site, approval from the Contaminated Land Site Auditor may be required if other material type (e.g. recovered aggregate, ENM) is proposed to be imported.
- Include material tracking requirement (for waste and imported material) in accordance with Appendix C of the Trace RAP.

#### 3.6 CEMP, Sub-plans and Post Approval Documents

The Auditor considers that the CEMP and sub-plans are generally appropriate for the construction works to minimise environmental impact. Noting that the earthworks onsite have been largely completed, the previous recommendations on Waste Management Plan would no longer provide added benefit for waste management practice onsite.

#### 3.7 Discussion of Other Matters

The Auditor does not consider that there are other matters, based on regulatory requirements and legislation or the development's past performance, other than those covered in this IEA.

#### 3.8 Outcomes of Consultation with Relevant Agencies and/or Stakeholders

Prior to conducting the site audit, Geosyntec consulted DPE and Central Coast Council. Consultation correspondence and responses from the Agencies are provided in Appendix C. The outcome of the consultation is as follows:

- No response was received from Central Coast Council.
- DPE did not have any additional requirements that are not already captured by section 3.3 of the IAPAR (May 2020).

#### 3.9 Complaints and Management of Complaints

Deicorp provided a complaint register, which is also available online at the Project website (<u>https://rumbalaraportal</u>.com.au/). There were 3 complaints within the current Audit period as outlined in Table 3.5.

#### Table 3.5. Complaint Details

Date Received	Nature of Complaint (Unless indicated, all these complaints are received through the certifier via email)	Deicorp's Response	Auditors Comment
8 June 2023	Out of Hours Works beyond 6pm on Tuesday 7 <sup>th</sup> June.	Geosyntec sighted an email dated 16 June 2023 from Deicorp to JWD containing response on the complaint. The email stated that works were completed by 5:45pm and the concrete pump was washing down within the site on the concrete hardstand adjacent to the gate until around 6:30pm. Gates were closed by 6:30pm. Site diary was provided. The matter was reported to the police as the complainant became abusive.	The Auditor considers that Deicorp's response addressed the nature of the complaints.
16 and 18 October 2023	Complaint from Jody Goodman (neighbour) regarding the waiting times at the construction zones operated by Traffic Controller	Geosyntec sighted an email dated 18 October 2023 from Deicorp to the complainant providing an alternative route and stating that the traffic controller was provided to make the work safe.	The Auditor considers that Deicorp's response addressed the nature of the complaints.
17 October 2023 (DPE)	Complaint from resident for out of hours work (provided by DP&E) for 5 <sup>th</sup> and 12 <sup>th</sup> September 2023.	Geosyntec sighted an email dated 31 October 2023 from Deicorp to the DPE providing daily site diary for the 5 <sup>th</sup> and 12 <sup>th</sup> September 2023. Both diaries showed that the site was opened at 7am. Geosyntec also sighted an email response from DPE stating the department will continue to monitor compliance with the consent.	The Auditor considers that Deicorp's response addressed the nature of the complaints.

#### 3.10 Incidents and Management of Incidents

Deicorp stated that there was no incident that occurred during the Audit period.

#### 3.11 Performance of Environmental Management Plans

The review of mitigation measures listed in the EIS and associated documents associated with the construction phase versus actual impact is assessed in the Audit Table, Appendix F and is summarised in Table 3.6.

Table 3.6. Environmental Ir	mpact Assessment
-----------------------------	------------------

Environmenta Aspect	I Requirement	Auditor's Review
Bush fire	The proposal is to implement the recommendations contained in Bush Fire Assessment Report prepared by Clarke Dowdle and Associates dated 2 January 2020. An Asset Protection Zone is required on Lot 0 in SP72557 which will require the establishment of an appropriate restriction in accordance with the Conveyancing Act 1919.	will assess this requirement in the subsequent audit. n
Aboriginal Heritage	<ul> <li>All site workers and personnel involved within the Project Area are to undertake Cultural Inductions led by Darkinjung Local Aboriginal Land Council (LALC) to ensure all contractors are aware of their obligations while working on site.</li> <li>All relevant staff and contractors should be made aware of their statutory obligations for heritage under the National Parks and Wildlife Act 1974 and the Heritage Act 1977.</li> <li>If suspected Aboriginal objects and/or remains are identified, work should stop immediately. Darkinjung LALC DPE, and an archaeologist are to be contacted.</li> </ul>	<ul> <li>The following document was reviewed:</li> <li>RPS (20 May 2022), Aboriginal Cultural Heritage Management Plan was prepared in consultation with Darkinjung Local Aboriginal Land Council (LALC).</li> <li>Based on the interview with Deicorp Darkinjung Local Aboriginal Land Council (LALC) did not wish to be involved with the staff induction.</li> <li>Staff are inducted with Aboriginal Cultural Heritage Management Protocols. Evidence of induction records was sighted.</li> <li>Based on the information provided by Deicorp, no suspected Aboriginal objects and/or remains have been identified to date.</li> </ul>
Biodiversity	In accordance with the findings of the Biodiversity Development Assessment Report prepared by Conacher Consulting dated February 2020	<ul> <li>The following documents were reviewed:</li> <li>AEP (28 November 2022), Biodiversity Management Sub-Plan was prepared to address the findings of Biodiversity Development Assessment Report prepared by Conacher Consulting dated February 2020.</li> <li>Credit Retirement Report from Biodiversity Conservation Trust (8 April 2022).</li> <li>According to Deicorp, there have been no injured animals encountered.</li> <li>Deicorp advised that since the last Audit, there has been no additional biodiversity work taken place.</li> <li>Management requirements provided in the Biodiversity Management Sub-Plan will continue and will be conducted under the supervision of AEP consultant. AEP will provide a summary report at the conclusion of works, which will be reviewed in subsequent Audits.</li> </ul>
Tree Removal	The pruning of trees is to occur in accordance with Australian Standard	The following document was reviewed:

Environmenta Aspect	I Requirement	Auditor's Review
	AS 4373-2007 'Pruning of Amenity Trees' and fencing and/or safety mesh is to be used for the duration of construction.	<ul> <li>AEP (28 November 2022) Biodiversity Management Sub-Plan.</li> <li>Tree removal is not yet fully completed. Previous tree removal has taken place under the supervision of AEP, following site management plan. AEP will provide a summary report at the conclusion of tree removal works, which will be reviewed in subsequent Audits.</li> </ul>
Tree Protection	Tree protection will be provided in accordance with Australian Standards (2009) AS4970 and with the recommendations of the Vegetation Management Plan & Arboricultural Impact Assessment prepared by	<ul> <li>The following document was reviewed:</li> <li>AEP (28 November 2022), Biodiversity Management Sub-Plan was prepared to address the findings of Biodiversity Development Assessment Report prepared by Conacher Consulting dated February 2020.</li> </ul>
	Conacher Consulting dated February 2020.	<ul> <li>Based on the interview with Deicorp and site observation, exclusion zones are set up with "No Unauthorised Entry" signs.</li> </ul>
	2020.	<ul> <li>Signage was unable to be observed as the area was no longer accessible. No development was observed above the cliff, where the tree protection area is located.</li> </ul>
Waste	The proposal shall be in accordance with the site Waste Management Plan.	<ul> <li>The following document was reviewed:</li> <li>Barker Ryan Stewart (22 February 2022) Waste Management Plan.</li> </ul>
		• The Auditor recommends that the waste management plan should be reviewed and include more details as documented in Section 3.6.
		• General waste skip bin was observed onsite and was reportedly collected by Skips and Scraps on regular basis.
		• Based on an interview with Deicorp, there was no other waste bin required on site. No soil waste has been generated by the site since last Audit.
		Geosyntec observed that waste was contained within the site.
		• Fill and VENM material were disposed offsite. Tipping summary was provided. The importation and exportation of materials will also be audited by the site Contaminated Land Auditor.
		No soils with visual or odorous signs of contamination have been encountered.
	<ul> <li>Septic waste was collected onsite and pumped out by waste collector (Kenny's Liquid Waste/Affordable Sanitation/Affordable Liquid Waste).</li> </ul>	
		No paint waste has been produced yet.
		<ul> <li>Concrete waste has been kept to minimum and allowed to dry prior disposal.</li> </ul>
Noise and	The proposal shall be in accordance	The following document was reviewed:
Vibration	with the recommendations of the Noise and Vibration Impact Assessment prepared by EMM Consulting dated 11 February 2020.	<ul> <li>Koikas Acoustic (19 October 2022), Construction Noise and Vibration Management Plan.</li> </ul>
		• Rock hammer and surface miners were not used at the time of Audit. Site excavation had been completed around April 2023. Vibration monitoring had also been ceased in April 2023.
		<ul> <li>Based on the complaint register, there has been no noise complaints since the last audit.</li> </ul>
		• Based on the interview with Deicorp, all vehicles were fitted with quacker (reversing alarm). Auditor noticed the sound during the site Audit.
		No excessive noise was observed at the time of the Audit.
Contamination	The proposal shall be in accordance with the recommendations of the Detailed Site Investigation and	• The site was remediated by Environmental Consultant (Trace) in accordance with the recommendations in the Detailed Site Investigation and Remediation Action Plan.
	Remediation Action Plan prepared by TRACE Environmental dated 20 January 2020.	A Contaminated Land Auditor has been engaged to Audit the site remediation works. The Contaminated Land Auditor will issue a Site Audit Report and Site Audit Statement.

Environment Aspect	al Requirement	Auditor's Review	
Construction Impacts	Construction impacts shall be managed in accordance with the site CEMP.	<ul> <li>The following document was reviewed:</li> <li>DEICORP (29 November 2022) Construction Environmental Management Plan (CEMP)</li> </ul>	I
		<ul> <li>Staff were inducted based on an induction check list.</li> </ul>	
		<ul> <li>During the Audit, the following was observed:</li> </ul>	
		- Chemicals on site were stored in a self-bunded cabinet in a room on site.	
		<ul> <li>No fuel truck or fuel storage was observed. Deicorp advised that there is no need to fuel up on site as refuelling occurs offsite.</li> </ul>	I
		• Deicorp stated that no asbestos, heritage or aboriginal objects have been encountered on site.	
		<ul> <li>Site stormwater pit is constructed, but currently is not connected to the council stormwater channel yet. Deicorp advised that the water in the pit is still disposed off-site. Disposal records were unable to be sighted.</li> </ul>	
Construction	Construction traffic shall be in	<ul> <li>The following document was reviewed:</li> </ul>	
Traffic	accordance with the recommendations of the Construction Traffic Management Plan.	<ul> <li>Barker Ryan Stewart (11 May 2023), Construction Traffic Pedestrian Management Plan</li> </ul>	
	T IGH.	<ul> <li>Vehicle access is from John Whiteway Drive.</li> </ul>	
		<ul> <li>During the Audit, the following was observed:</li> </ul>	
		- Traffic signs were present.	
		<ul> <li>The road reserves bordering the site were not observed to b obstructed, noting that road occupancy licence is available for the site for the use of traffic controller.</li> </ul>	
		<ul> <li>Construction traffic access and flow were observed to be adequate.</li> </ul>	
		<ul> <li>No soil/silt was observed on public roads, which may have resulted from the construction vehicles onsite.</li> </ul>	
Soil & water	The EIS does not provide mitigation	<ul> <li>The following document was reviewed:</li> </ul>	
	measures. The Audit assessed the implementation	<ul> <li>Barker Ryan Stewart (22 February 2023), Soil and Water Management Plan.</li> </ul>	
	of Barker Ryan Stewart (30 November 2022) Soil and Water Management	<ul> <li>During the Audit, the following was observed:</li> </ul>	
	Plan for the site.	<ul> <li>Sediment fencing was observed across the southern and eastern boundaries at the time of the Audit.</li> </ul>	
		<ul> <li>Geotextile coir logs were observed on the stormwater drains John Whiteway Drive.</li> </ul>	s on
	<ul> <li>Stormwater detention basin has been constructed onsite, bu stormwater was reportedly collected in stormwater tank for offsite disposal during the Audit period, as required. Disposa records were unable to be sighted.</li> </ul>		
	<ul> <li>No evidence of leaks was observed from the hydrants on Jo Whiteway Drive, which was previously leaking. In the second Audit, Deicorp has advised that it has been fixed.</li> </ul>		
	<ul> <li>Cattle grids had been removed as earthworks had been completed. The area near the gate is paved area.</li> </ul>		
	<ul> <li>Based on a discussion with Deicorp and observation on site, trucks transporting soil mostly stay on paved areas, as other areas are no longer accessible to trucks.</li> </ul>		
		<ul> <li>It is noted that many vehicles (including contractor vehicles) parked on unpaved soil on the kerb. Potential dirt tracking or road can occur from these vehicles particularly on wet days.</li> </ul>	n
Dust and air	No mitigation measures identified by	No incident was reported to date.	
quality	EIS.	<ul> <li>During the Audit, the following was observed:</li> </ul>	
The Audit assessed implementati the mitigation measures provided CEMP.		<ul> <li>No malodorous odour was noted, but dust was noted.</li> <li>No excessive dust was observed during the Audit.</li> </ul>	

#### 3.12 Evidence Collected through Site Inspection

The evidence collected during the site inspection is recorded in Appendix E and F and included:

- Observation of construction vehicles, traffic access and flow, pedestrian pathways, signage, hoarding.
- Observation of noise levels and the presence of noise mitigation measures.
- Observation of any contamination issues (such as dust, sediment on the road, sediment into stormwater system).
- Observation of appropriate sediment and dust control and mitigation measures.
- Observation of appropriate waste storage and disposal.
- Observation of chemical storage practises.

#### 3.13 Evidence to Support Compliance Assessment

Evidence provided during the Audit comprised the following:

- Deicorp's site diaries.
- Complaint records and evidence of investigation and follow up.
- Site induction materials, induction records and toolbox meeting records.
- Permits and licences.
- Other documents required by the conditions of consent.

#### 3.14 Environmental Management Improvement Opportunities

The Auditor's recommendations on improvement opportunities are provided in Section 4.

#### 3.15 Key Strengths of the Project Environmental Management and Performance

During the site audit, Deicorp demonstrated understanding of environmental management requirements and addressed the majority of the recommendations provided in the previous audits.

### 4 Recommendations and Opportunities for Improvements

The Auditor makes the following recommendations to improve record keeping and/or work practices on site:

- More proactive communications should be provided to subcontractors not to park on the road as additional onsite parking is available onsite. Parking on unpaved road setbacks should be discouraged.
- Disposal record of water collected in stormwater tank shall be documented and be made available for future audits.
- Imported material documents must be provided to the contaminated land auditor to complete the contaminated land audit.
- Initial response to complaints should be provided to the complainant in accordance to the requirement of the Community Communication Strategy (within 7 days of complaint). Follow up contact should be conducted within 7 days following resolution of complaints.
- Any temporary traffic control measures notification shall be provided to adjoining property owners 7 days prior to the implementation, aligned with the requirement in the Construction Traffic and Pedestrian Management Sub Plan.
- It would be prudent to include site closing time in the site diary.

#### Post IEA

- A copy of this IEA and Deicorp's response must be uploaded to the project website following completion of this IEA. Deicorp's response to the previous IEA must also be uploaded to the project website.
- Strategies, plans, and programs should be reviewed and revised accordingly within three months of the submission of the IEA report to DPE. Evidence of review should be documented. When a review of the plans is being conducted, Planning Secretary should be notified in writing.
- IEA response should be made publicly available within 60 days of submission to the Planning Secretary.
- IEA response should be submitted to the Planning Secretary within 2 months of the Audit site inspection.

### 5 Limitations

This report has been prepared by Geosyntec Consultants Pty Ltd ("Geosyntec") for use by the Client who commissioned the works in accordance with the project brief only, and has been based in part on information obtained from the Client and other parties. The findings of this report are based on the scope of work outlined in Section 1. The report has been prepared specifically for the Client for the purposes of the commission, and use by any explicitly nominated third party in the agreement between Geosyntec and the Client. No warranties, express or implied, are offered to any third parties and no liability will be accepted for use or interpretation of this report by any third party (other than where specifically nominated in an agreement with the Client).

This report relates to only this project and all results, conclusions and recommendations made should be reviewed by a competent person with experience in environmental investigations, before being used for any other purpose. This report should not be reproduced without prior approval by the Client, or amended in any way without prior written approval by Geosyntec.

Geosyntec's assessment was limited strictly to identifying environmental conditions associated with the subject property area as identified in the scope of work and does not include evaluation of any other issues.

Changes to the subsurface conditions may occur subsequent to the investigations described herein, through natural processes or through the intentional or accidental addition of contaminants. The conclusions and recommendations reached in this report are based on the information obtained at the time of the investigation.

This report does not comment on any regulatory obligations based on the findings. This report relates only to the objectives stated and does not relate to any other work conducted for the Client.

The absence of any identified hazardous or toxic materials on the site should not be interpreted as a guarantee that such materials do not exist on the site.

All conclusions regarding the site are the professional opinions of the Geosyntec personnel involved with the project, subject to the qualifications made above. While normal assessments of data reliability have been made, Geosyntec has not independently verified and assumes no responsibility or liability for errors in any data obtained from regulatory agencies, statements from sources outside of Geosyntec, or developments resulting from situations outside the scope of this project.

Geosyntec is not engaged in environmental assessment and reporting for the purpose of advertising sales promoting, or endorsement of any client interests, including raising investment capital, recommending investment decisions, or other publicity purposes. The Client acknowledges that this report is for its exclusive use.

Proponent	JWD Construction
Title of Audit	Independent Environmental Audit of the 89 John Whiteway Drive, Gosford NSW 2250
Date	18 December 2023

#### **Independent Audit Declaration Form**

I declare that I have undertaken the Independent Audit and prepared the contents of the attached Independent Audit Report and to the best of my knowledge:

- the audit has been undertaken in accordance with relevant condition(s) of consent and the *Independent Audit Post* Approval Requirements (Department 2020);
- the findings of the audit are reported truthfully, accurately and completely;
- I have exercised due diligence and professional judgement in conducting the audit;
- I have acted professionally, objectively and in an unbiased manner;
- I am not related to any proponent, owner or operator of the project neither as an employer, business partner, employee, or by sharing a common employer, having a contractual arrangement outside the audit, or by relationship as spouse, partner, sibling, parent, or child;
- I do not have any pecuniary interest in the audited project, including where there is a reasonable likelihood or expectation of financial gain or loss to me or spouse, partner, sibling, parent, or child;
- neither I nor my employer have provided consultancy services for the audited project that were subject to this audit except as otherwise declared to the Department prior to the audit; and
- I have not accepted, nor intend to accept any inducement, commission, gift or any other benefit (apart from payment for auditing services) from any proponent, owner or operator of the project, their employees or any interested party. I have not knowingly allowed, nor intend to allow my colleagues to do so.

#### Notes:

- a) Under section 10.6 of the Environmental Planning and Assessment Act 1979 a person must not include false or misleading information (or provide information for inclusion in) in a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is false or misleading in a material respect. The proponent of an approved project must not fail to include information in (or provide information for inclusion in) a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is materially relevant to the monitoring or audit. The maximum penalty is, in the case of a corporation, \$1 million and for an individual, \$250,000; and
- b) The Crimes Act 1900 contains other offences relating to false and misleading information: section 307B (giving false or misleading information maximum penalty 2 years imprisonment or 200 penalty units, or both).

21322 L10 SSD10321 APG Gosford Notification 3rd audit to DPE 9Oct23

9 October 2023

Department of Planning and Environment

Via Project Portal

Dear Sir/Madam,

### Re: Notification of Independent Environmental Auditors, SSD10321, 89 John Whiteway Drive, Gosford NSW 2250

Geosyntec Consultants Pty Ltd (Geosyntec) has been engaged by Artazan Property Group (APG) to conduct an Independent Environmental Audit project for 89 John Whiteway Drive, Gosford NSW ('the site'). The site is listed as Lot 100 in DP 1075037 and Lot 1 in DP 45551.

The Independent Environmental Audit is conducted to meet Conditions D35 to D40 of State Significant Development (SSD) No. 10321, which state:

D35	Proposed independent auditors must be agreed to in writing by the Planning Secretary prior to the preparation of an Independent Audit Program or commencement of an Independent Audit.
D36	Independent Audits of the development must be conducted and carried out in accordance with the Independent Audit Post Approval Requirements (DPIE 2020)
D37	The Planning Secretary may require the initial and subsequent Independent Audits to be undertaken at different times to those agreed to above, upon giving at least four weeks notice to the applicant of the date or timing upon which the audit must be commenced.
D38	In accordance with the specific requirements in the Independent Audit Post Approval Requirements (DPIE 2020), the Applicant must:
	<ul> <li>a. In accordance with the specific requirements in the Independent Audit Post Approval Requirements (DPIE 2020), the Applicant must:</li> </ul>
	<ul> <li>b. (a) review and respond to each Independent Audit Report prepared under condition D36 and D37 of this consent;</li> </ul>
	c. (b) submit the response to the Planning Secretary and the Certifier; and
	(c) make each Independent Audit Report and response to it publicly available within 60 days of submission to the Planning Secretary.
D39	Independent Audit Reports and the Applicant's response to audit findings must be submitted to the Planning Secretary within 2 months of undertaking the independent audit site inspection as outlined in the Independent Audit Post Approval Requirements (DPIE 2020).
D40	Notwithstanding the requirements of the Independent Audit Post Approval Requirements (DPIE 2020), the Planning Secretary may approve a request for ongoing independent operational audits to be ceased, where it has been demonstrated to the Planning Secretary's satisfaction that an audit has demonstrated operational compliance.

The Independent Environmental Audit will be conducted in accordance with the NSW Government Independent Audit Post Approval May (June 2020) (IAPAR 2020).

The third audit has been scheduled for 19 October 2023. The proposed audit team for the 3<sup>rd</sup> audit includes Cheryl Halim as Lead Auditor, assisted by Cissillia Young (as Auditor).

Qualifications are included as Attachment A to this letter and the completed declaration form in accordance with IAPAR 2020 is provided in Attachment B.

The lead environmental auditor and auditor have completed a significant number of environmental site assessments, environmental management, and site audits on similar sites as identified in Attachment A.

Should you have any queries or wish to discuss any points, please do not hesitate to contact the undersigned.

Yours sincerely,

reychalin

Cheryl Halim Independent Environmental Auditor/ Exemplar Global AU (ISO 19011:2018) (No. 11280933-7383767) Geosyntec Consultants Pty Ltd

#### **PROFESSIONAL SUMMARY**

Cheryl has over seventeen years' experience in environmental assessment, remediation and management and has conducted contaminated land site audits in New South Wales, Western Australia, Australian Capital Territory, and South Australia. Cheryl's postgraduate qualification in chemical engineering and waste provide specialist skills in assessing for environmental and waste compliance. Cheryl is a NSW EPA accredited site auditor and an Exemplar Global Auditor and has conducted several independent environmental audits in accordance with NSW Government (2018 & 2020) Independent Environmental Audit Post Approval Requirements.

Cheryl has recently been involved in providing advice for WA Department of Water and Environmental Regulation and NSW Department of Health. Cheryl has conducted health risk assessments for a variety of projects including service stations, colliery, and for the NSW Department of Health.

#### **KEY PROJECT EXPERIENCE**

#### **Independent Environmental Audits**

**Rumba Lara development, Gosford, NSW** – Lead Auditor for the construction of Rumba Lara residential development (required as part of SSD 10321).

**Roseville College, Roseville** – Lead Auditor for the construction phase of the Roseville College (required as part of SSD 9912).

**Vopak Site B4A** – Auditor for the construction and operational phase of the Vopak Site B4A bulk liquid storage (required as part of SSD 7000).

**Holt Land Rehabilitation Centre** – Auditor for the operational phase of the landfill operation (voluntary audit).

**Brewery Yard, Chippendale** – Auditor for the operational phase of the former Brewery Yard building for commercial use (required as part of SSD 9374).

**UNSW Cliffbrook Stage 1 Heritage-Listed Building Refurbishment** – Lead Auditor for the construction phase of the UNSW Cliffbrook Stage 1 development (required as part of SSD 8126).

**UNSW Cliffbrook Stage 1 Heritage-Listed Building Refurbishment** – Lead Auditor for the construction phase of the UNSW Cliffbrook Stage 1 development (required as part of SSD 8126).

**Western Sydney University, Bankstown, NSW** – Auditor for the construction of Western Sydney University (required as part of SSD 9831).

Iglu Redfern 2, Redfern, NSW - Auditor for the construction of Iglu Redfern 2 (required as part of SSD 9275).

**Cranbrook School, Bellevue Hill, NSW** – Lead Auditor and waste specialist for the construction of Cranbrook School (required as part of SSD 8812).

**Sydney Zoo, Bungarribee, NSW** – Auditor and waste specialist for the construction and operation of Sydney Zoo (required as part of SSD 7228).

Western Sydney University, Parramatta, NSW - Auditor for the construction of Western Sydney University (required as part of SSD 9670).

#### Audit

Audit assistant for over 100 statutory and non-statutory audits under the NSW CLM Act 1997 and other states. General scope of work included review of environmental assessment reports, environmental compliance during remediation, waste compliance, preparation of site audit reports.

**The Shore School, North Sydney, NSW** – Audit assistance on the redevelopment of the Shore School (required as part of SSD).

**Ferrovial York Joint Venture Warringah Road Expansion** – Audit assistance for the Warringah Road expansion, which is required by state significant infrastructure (SSI) conditions.

**Cumberland Council, Pemulwuy** – Audit assistance for the proposed commercial/industrial development at Council land at Pemulwuy.

**Thirdl Group, 31-41 William Street, Alexandria** – Audit assistance for the development of a high density residential building with basement carpark.

**Bathla Group, Schofields, NSW** – Audit assistance on the proposed low density residential land subdivision at Schofields.

**Stockland, Marsden Park, NSW** – Audit assistance on the proposed low density residential land subdivision at Marsden Park.

Meriton, Lidcombe, NSW – Audit assistance on the proposed high density residential apartments in staged process.

**EG Funds, Summer Hill, NSW** – Audit assistance on the proposed high density residential apartments and open space landuses in staged process.

Endeavour Energy, Harris Park, NSW – Audit assistance on the proposed low density residential land.

Meriton Group, 330 Church Street, Parramatta, NSW - Audit assistance on the proposed open space landuse.

Thirdl Group & Milligan Group, 830-838 Elizabeth Street, Waterloo, NSW – Audit Assistance on the proposed high density residential property.

**The ACT Government, Capital Metro Project, Canberra, ACT** – Audit assistance on the proposed light rail route from Civic to Gungahlin.

**Viva Energy Australia, Coles Express Service Station, 194 Pacific Highway** – Audit assistance on the site audit of a Coles Express Service Station, where petroleum hydrocarbon impact has migrated offsite to an adjacent residential apartment.

**Parklane Group, 63-85 Victoria Street, Beaconsfield, NSW** – Audit assistance on the proposed residential development at Beaconsfield.

**XR Property Developments, 146-156 Botany Road, Alexandria, NSW** – Audit assistance on the proposed residential development at Alexandria. The site has been notified to the EPA due to the offsite migration of petroleum hydrocarbon.

**Central Coast Automotive, Gosford, NSW** – Audit assistance on a large parcel of land, comprising former service station, former vehicle maintenance, former carwash buildings.

Ceedive, Former Lithgow Pottery Estate, NSW – Audit assistance on a former pottery estate site at Lithgow.

Forbes City Council, Former Forbes Gasworks, NSW – Audit assistance on a former Forbes Gasworks.

**Gunnedah Council, Gunnedah Airport, NSW** – Audit assistance on a former pesticide spraying facility, Gunnedah Airport, Gunnedah.

#### **Risk Assessment**

**Dahua, Waterloo, NSW** – Review of human health risk assessment report for the proposed high density residential and open space landuse development for impact from offsite dry cleaning facility. The review was conducted as part of a site audit.

**PDS Group, Pyrmont, NSW** – Review of human health risk assessment report for the proposed high density residential and commercial development for impact from historical Council depot. The review was conducted as part of a site audit.

**VIG Group, Pagewood** – Review of human health risk assessment reports and development of site-specific screening level for the proposed low density and high density residential, open space and commercial/industrial development. The review was conducted as part of a site audit.

**Thirdl Group, Alexandria, NSW** – Review of human health risk assessment report for the proposed high density residential and commercial development. The review was conducted as part of a site audit.

**Penrith City Council, Penrith, NSW** – Review of human health risk assessment report for the proposed park and high density residential development. The review was conducted as part of a site audit.

**McNally Management, Alexandria, NSW** – Review of human health risk assessment for a high density residential apartment. The review was conducted as part of a site audit.

Various Caltex and Mobil Service Stations – Health risk assessment of potential soil, groundwater and soil vapour impact at former Caltex and Mobil service stations.

**Boral Limited, Confidential site** – Health risk assessment of the potential risk of water from colliery used by mine workers and nearby village residents.

**NSW Department of Health** – Onsite health risk assessment of potential risk of groundwater contamination in a slab-on-ground building of a former ambulance station.

**Caltex Refinery, Kurnell, NSW** – Qualitative risk assessment studies of the processes and the current status of soil and groundwater contamination at Caltex Refinery, Kurnell.

#### Site Assessment and Remediation

**City of Sydney Council, Federal Park, Annandale, NSW** – Detailed site investigation, remediation and validation of Federal Park, Annandale. The contamination identified included PAHs and asbestos. Remediation comprised capping of impacted material beneath validated material over the entire site. The site is subject to a long term environmental management plan.

**UrbanGrowth NSW, North Eveleigh West and South Eveleigh, NSW** – Site investigation at the North Eveleigh West (approximately 3ha) and South Eveleigh (approximately 4.8ha) proposed residential development, which is a major development project in Sydney. Scope of work included project management, review of historical records and investigation reports, preparation of sampling plan for a detailed site investigation, preparation of investigation reports, preparation of remedial action plans (RAPs), liaison with Urban Growth NSW, site auditor, design team and other stakeholders.

**NSW Ports, Intermodal Terminal Centre at Enfield, NSW** – Validation of the Intermodal Terminal Centre at Enfield (ILC @ Enfield). Various contamination (including asbestos, petroleum hydrocarbon, etc.) was present at the site. The scope of work included review of significant number of available reports and documents provided by NSW Ports and contractors, preparation of validation reports, liaison with contractors and site auditor. I have prepared all the validation reports for the site, which were approved by the site auditor, resulting in site auditor sign off.

**PwC's Auditor Training**

#### **PROFESSIONAL SUMMARY**

Cissillia has 8 years of experience working as an environmental consultant in Singapore and Australia. She has a Doctorate in Chemical Engineering. During her career as an environmental consultant, she managed budgets, data, contractors, and clients and has had experience in the petroleum sector, as well as site audits. Cissillia has been enriching her business and interpersonal skills in data acquisition, validation, auditing, and reporting. She is currently a member the Geosyntec Audit Team and is involved in site audits to meet Contaminated Land Management Act 1997, Independent Environmental Audits, and State Significant Development consent conditions.

#### **KEY PROJECT EXPERIENCE**

#### Independent Environmental Audits

**Gregory Hills Primary School, NSW –** Support Auditor for the construction of Gregory Hills Primary School (required as part of SSD 1306367). Ongoing in 2023.

**Rumba Lara Development, NSW** – Support Auditor for the construction of Rumba Lara residential development (required as part of SSD 10321). Almost complete in 2023.

Holt Kurnell, NSW – Support Auditor for the operation of a landfill facility at Kurnell.

**Western Sydney University, NSW** – Support Auditor for the construction of Western Sydney University (required as part of SSD 9831).

**Roseville College, NSW –** Support Auditor for the construction of Roseville College (required as part of SSD 9912). Almost complete in 2023.

**The Brewery Yard Central Park, NSW** – Support Auditor for the refurbishment of a heritage building (required as part of SSD 9374).

**Jindabyne Education Campus, NSW** - Support Auditor for the construction of Jindabyne Education Campus (required as part of SSD 15788005). Almost complete in 2023.

**Remondis Tomago Resource Recovery Facility, NSW** - Support Auditor for the operation of Resource Recovery Facility (required as part of SSD 10447). Almost complete in 2023.

**Cranbrook School, Bellevue Hill, NSW** – Support Auditor for the operation of Cranbrook School sporting facility (required as part of SSD 8812).

**Sydney Vopak Terminal, NSW** - Support Auditor for the operation of bulk liquid storage facility (required as part of SSD MP06 0089).

#### Audits

**Molonglo 132kV Relocation Project, Molonglo, ACT** – Audit assistance on review of Contaminant Management Plans (CMPs) for transmission line upgrade works by Zinfra and Woden Contractors Pty Ltd (Wodens).

**The Concord Hospital, Concord, NSW** – Audit assistance on the redevelopment of the Concord Hospital.

**City of Parramatta Square, Parramatta, NSW** – Audit assistance on the redevelopment of Parramatta Square Town Hall.

Gamuda Australia, M12, NSW – Audit assistance on the construction of the Westmead Metro Station.

#### **Environmental Assessments**

**CALTEX** – Environmental assessments and project management, proposal and quotation, management and coordination of contractor, client, and government agencies, data analysis and report, permit application, regulatory compliance, and pollution control studies.

**SHELL** – Environmental assessments and project management, proposal and quotation, management and coordination of contractor, client, and government agencies, data analysis and report, permit application, regulatory compliance, and pollution control studies.

**BOC Gases** – Environmental assessments and project management, proposal and quotation, management and coordination of contractor, client, and government agencies, data analysis and report, permit application, regulatory compliance, and pollution control studies.

Abacus – Phase 1 Environmental Assessment, Croydon.

- Abacus Phase 1 Environmental Assessment, Leumeah.
- Abacus Phase 1 Environmental Assessment, Kirrawee.

# **CONFERENCES AND EXHIBITIONS**

### Hydrogen and Fuel Cell Fair (Hannover Fair), Germany

- Formulated and implemented strategies for good public relations.
- Support tradeshow ambassadors and VIP visitors during the fair.

#### 1<sup>st</sup> World Hydrogen Technology Convention, Singapore

- Business to business marketing campaign and increased the net profit by 20%.
- Designed and planned exhibition floor (operational management).

### PhD

- Design and conduct scientific experiments to understand the degradation of environmental pollutants from drycleaners using advanced oxidation technology (AOT).
- 3 Conferences and 2 scientific journal publications.

Attachment B – Declaration

#### Independent Audit Declaration Form

Project Name	JWD Development	
Consent Number	SSD 10321	
Description of Project Construction of a residential development comprising four residential flat b to accommodate 201 dwellings, basement car parking, associated landsca public domain works.		
Project Address	ddress 89 John Whiteway Drive, Gosford NSW 2250	
Proponent JWD Development		
Title of Audit	Independent Environmental Audit of the development at 89 John Whiteway Drive, Gosford NSW 2250	
Date	9 October 2023	

I declare that I have undertaken the Independent Audit and prepared the contents of the attached Independent Audit Report and to the best of my knowledge:

- the audit has been undertaken in accordance with relevant condition(s) of consent and the *Independent Audit Post* Approval Requirements (Department 2020);
- the findings of the audit are reported truthfully, accurately and completely;
- · I have exercised due diligence and professional judgement in conducting the audit;
- I have acted professionally, objectively and in an unbiased manner;
- I am not related to any proponent, owner or operator of the project neither as an employer, business partner, employee, or by sharing a common employer, having a contractual arrangement outside the audit, or by relationship as spouse, partner, sibling, parent, or child;
- I do not have any pecuniary interest in the audited project, including where there is a reasonable likelihood or expectation of financial gain or loss to me or spouse, partner, sibling, parent, or child;
- neither I nor my employer have provided consultancy services for the audited project that were subject to this audit except as otherwise declared to the Department prior to the audit; and
- I have not accepted, nor intend to accept any inducement, commission, gift or any other benefit (apart from
  payment for auditing services) from any proponent, owner or operator of the project, their employees or any
  interested party. I have not knowingly allowed, nor intend to allow my colleagues to do so.

Notes:

- a) Under section 10.6 of the Environmental Planning and Assessment Act 1979 a person must not include false or misleading information (or provide information for inclusion in) in a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is false or misleading in a material respect. The proponent of an approved project must not fail to include information in (or provide information for inclusion in) a report of monitoring data or an audit report produced to the Minister in connection with an audit if the person knows that the information is materially relevant to the monitoring or audit. The maximum penalty is, in the case of a corporation, \$1 million and for an individual, \$250,000; and
- b) The Crimes Act 1900 contains other offences relating to false and misleading information: section 307B (giving false or misleading information maximum penalty 2 years imprisonment or 200 penalty units, or both).

Sent via the Major Projects Portal only

Subject: Residential Development at 89 John Whiteway Dr - Reapproval of Independent Auditors

# Dear Mr Longo

Reference is made to your post-approval matter, SSD-10321-PA-18, request for the Planning Secretary's re-endorsement of suitably qualified, experienced, and independent persons to conduct the third Independent Audit of the Residential Development at 89 John Whiteway Dr, submitted as required by Schedule 2, Condition D35 of SSD-10321 as modified (**Consent**) to NSW Department of Planning and Environment (**NSW Planning**) on 10 October 2023.

NSW Planning has reviewed the independent auditor nominations and based on the information you have provided is satisfied that the proposed audit team are suitably qualified, experienced, and independent.

In accordance with Schedule 2, Condition D35 of the Consent and the NSW Planning, *Independent Audit Post Approval Requirements* (2020) (**IAPAR**), as a nominee of the Planning Secretary, I endorse the following independent audit team from Geosyntec Consultants Pty Ltd:

- Cheryl Halim (Lead Auditor)
- Cissillia Young (Auditor)

Please ensure this correspondence is appended to the Independent Audit Report.

The Independent Audit must be prepared, undertaken, and finalised in accordance with the conditions of Consent and the IAPAR. Failure to meet these requirements will require revision and resubmission.

NSW Planning reserves the right to request an alternate auditor or audit team for future audits.

Please note, that each subsequent IEA under the consent and IAPAR requires a request for the re-endorsement of the existing audit team or a request for agreement to a revised audit team to be submitted to NSW Planning for consideration of the Planning Secretary. Each request is reviewed

# Department of Planning and Environment

and depending on the complexity of the project, the suitability of the proposed team will be considered.

Should you wish to discuss the matter further, please contact Astrid Christensen, (Compliance Office) on 9274 6170 or email compliance@planning.nsw.gov.au

Yours sincerely

Julia Pope Team Leader Compliance - Metro Compliance

As nominee of the Planning Secretary

Dear Sir/Madam,

Geosyntec Consultants Pty Ltd (Geosyntec) has been engaged by Artazan Property Group (APG) to conduct an Independent Environmental Audit project for 89 John Whiteway Drive, Gosford NSW 2250 ('the site'). The site is legally identified as Lot 100 in DP 1075037 and Lot 1 in DP 45551 and occupies an area of approximately 2.2 ha.

The State Significant Development (SSD) consent for the site (SSD No. 10321) issued by the Department of Planning and Environment (DP&E) requires the audit to be conducted in accordance with the requirements outlined in the Independent Audit Post Approval Requirements (PAR) (2020).

In accordance with the Independent Audit PAR (2020), we are required to consult with Planning and other agencies / key stakeholders to obtain their input into the scope of the Audit.

Please advise if the Council has any comments/concerns, regarding environmental issues relating to the project, that you would like us to consider as part of the third independent audit. The audit has been scheduled to take place on 19 October 2023. Please do not hesitate to contact us if you have any questions.

We look forward to hearing back from you. Thank you.

Kind Regards,

Cissillia Young Environmental Engineer

Dear Gabriel,

Geosyntec Consultants Pty Ltd (Geosyntec) has been engaged by Artazan Property Group (APG) to conduct an Independent Environmental Audit project for 89 John Whiteway Drive, Gosford NSW 2250 ('the site'). The site is legally identified as Lot 100 in DP 1075037 and Lot 1 in DP 45551 and occupies an area of approximately 2.2 ha. The Independent Environmental Audit is conducted to meet Conditions D35 to D40 of the SSD 10321 Mod2 (3 June 2022).

The Independent Environmental Audit will be conducted in accordance with the NSW Government Independent Audit Post Approval (May 2020) (IAPAR 2020).

The proposed audit team includes Cheryl Halim as Lead Auditor, assisted by Cissillia Young as support Auditor. The Audit team has been approved by DP&E in a letter dated 3 November 2022 (Attached)

As required by the IAPAR (2020), we need to conduct consultation with DP&E and other agencies. As such, please advise if there are any items that need to be included as part of our third Audit which has been scheduled for 19 October 2023.

Should you have any queries or wish to discuss any points, please do not hesitate to contact us back.

Sent on behalf of Cheryl Halim, Lead Auditor.

Kind Regards,

Cissillia Young Environmental Engineer

NSW GOVERNMENT

Department of Planning and Environment

The Proper Officer JWD Developments Pty Ltd ACN: 620 593 697 Level 26, 1 O'Commell Street Sydney NSW 2000

Att: Robert Longo (Deicorp)

03/11/2022

Dear Mr Longo

# Residential Development at 89 John Whiteway Drive Gosford - SSD- 010321 Audit team replacement nomination

I refer to your request (SSD-10321-PA-10) for the Secretary's approval of a suitably qualified person to conduct and prepare the Independent Environmental Audit (**IEA**) for the Residential Development at 89 John Whiteway Drive, Gosford (**Site**) for the development consent SSD-10321, as modified (**Consent**).

The Department of Planning and Environment (**department**) has reviewed the replacement nomination and information you have provided and is satisfied that Ms Cissillia Young is suitably qualified and experienced. Consequently, I can advise that the Secretary approves the appointment of Ms Cissillia Young to replace Ms Cristiane Florido as a 'support auditor'.

In accordance with Part D, Condition D35 of the Consent and the Independent Audit Post Approval Requirements 2020, as nominee of the Planning Secretary, I agree to the appointment of the following audit team from Geosyntec Consultants Pty Ltd:

- Ms Cheryl Halim (Lead Auditor),
- Ms Diana Turner (Auditor),
- Ms Rachael Martin (Support Auditor), and
- Ms Cissillia Young (Support Auditor).

Please ensure this correspondence is appended to the Independent Audit Report.

The Independent Audit must be prepared, undertaken and finalised in accordance with the Independent Audit Post Approval Requirements 2020. Failure to meet these requirements will require revision and resubmission.

The department reserves the right to request an alternate auditor or audit team for future audits.

Department of Planning and Environment

Notwithstanding the agreement for the above listed audit team for this Project, each respective project approval or consent requires a request for the agreement to the auditor or audit team be submitted to the department, for consideration of the Secretary. Each request is reviewed and depending on the complexity of future projects, the suitability of a proposed auditor or audit team will be considered.

Should you wish to discuss the matter further, please contact Gabriel Peters Shaw on 02 8837 6395 or email compliance@planning.nsw.gov.au

Yours sincerely

Hi Cissillia,

Each Independent Environmental Audit (IEA) under the consent and Independent Audit Post Approval Requirements (Department, 2020) requires a request for the re-endorsement of the existing audit team or a request for agreement to a revised audit team to be submitted to the Department for consideration of the Secretary.

I advised Deicorp that they will need to seek re-endorsement of the existing audit team for the upcoming IEA. Your submission should include a current CV, relevant qualifications and a written declaration of independence for each audit team member.

Please don't hesitate to contact me if you require any further information.

Kind regards,

# Astrid Christensen Compliance Officer

Subject:	Gosford 3rd IEA Closing Meeting
Attachments:	Gosford 3rd Audit Table.xlsx

Dear All,

Thank you for your participation in the 3rd Construction IEA Audit conducted on 19 October 2023.

# 1. Background and Objective of Email

During the site visit, we observed environmental management and conducted interviews with Deicorp key representatives regarding on-site practices. We also completed a review of the information provided against the IEA Audit Table.

Please treat this email as the Closing Meeting for the IEA.

As discussed, compliance is evaluated as follows:

- Compliant
- Non-compliant
- Non-triggered

The purpose of this email is to provide an overview of our findings, and outline any additional information required to address outstanding items.

# 2. Status of Review and Timing.

The status of our Audit Table is attached. Outstanding items are flagged in yellow, and we request additional information (if available).

The Draft Report will be sent by early December 2023 (noting the report is due on 20 Dec 2023), <u>subject to</u> receiving the additional information.

Please use the opportunity to provide additional information and rectify any potential non-compliances by mid December 2023, after which we will issue our final report (by 20 December 2023).

# 3. Identified Strengths

Deicorp has an improved system and record keeping, which greatly assisted our audit. During the site audit, Deicorp demonstrated a good understanding, proactive approach to environmental management, and is amenable to suggestions on improvement.

# 4. Potential non-compliances and opportunities for improvement

- As mentioned during the Audit and/or from the previous Audit, the following items are considered as noncompliant.
- Item G28 non-compliant because currently there is no evidence of revision of Strategies, plans and programs within three months of the submission of the second IEA or record of review of the Plans notified to EPA. It is recommended that review of CEMP and subplans be conducted following this audit and notification of the review is provided to Planning Secretary.

Item G75 - this non-compliance has been recorded as a non-compliance since the First Audit as the strategy has not been prepared in consultation with community. No recommendation was made.

# 5. Outstanding Items in Audit Table

See attached table. Please provide additional records as flagged in yellow before **24 November 2023** (preferably earlier) to enable inclusion in the Draft Report.

As discussed during the Audit, please advise us which Driver's Code of Conduct comprise the final version.

Thank you for your time. Please do not hesitate to contact Cheryl or myself if you have any questions. Sent on behalf of Cheryl Halim, Lead Auditor

Kind Regards,

Cissillia Young Environmental Engineer

# Appendix F Audit Table

Geos	Document	SSD	Condition	Evidence Collected / Observations - 3rd Audit	Independent Audit Findings and	i
yntec ID		Condition / CEMP Section			Recommendations - 3rd Audit	Non- Com
Part A	Administrative	Conditions				
G1	SSD-Mod2	A1	In addition to meeting the specific performance measures and criteria in this consent, all reasonable and feasible measures must be implemented to prevent, and, if prevention is not reasonable and feasible, minimise any material harm to the environment that may result from the construction and operation of the development.	The Auditor has reviewed the performance measures and criteria in this consent and non-compliances are indicated in the respective Conditions assessed in this table.		
G2	SSD-Mod2	A2	The development may only be carried out: (a) in compliance with the conditions of this consent; (b) in accordance with all written directions of the Planning Secretary; (c) generally in accordance with the EIS and Response to Submissions; (d) in accordance with the approved plans in the table below (Table not copied)			
	SSD-Mod2	A3	Consistent with the requirements in this consent, the Planning Secretary may make written directions to the Applicant in relation to: (a) the content of any strategy, study, system, plan, program, review, audit, notification, report or correspondence submitted under or otherwise made in relation to this consent, including those that are required to be, and have been, approved by the Planning Secretary; (b) any reports, reviews or audits commissioned by the Planning Secretary regarding compliance with this approval; and (c) the implementation of any actions or measures contained in any such document referred to in (a) above.	19/10/2023: Interview: - Deicorp (RL) stated that there has been no written direction from the Planning Secretary.		
G4	SSD-Mod2	A4	The conditions of this consent and directions of the Planning Secretary prevail to the extent of any inconsistency, ambiguity or conflict between them and a document listed in condition A2(c) or A2(d). In the event of an inconsistency, ambiguity or conflict between any of the documents listed in condition A2(c) and A2(d), the most recent document prevails to the extent of the inconsistency, ambiguity or conflict.			
G5	SSD-Mod2	A5	This consent lapses five years after the date of consent unless work is physically commenced.	Construction work has commenced on 4 October 2022.

		Section					
G6	SSD-Mod2		The Applicant must comply with all relevant prescribed conditions of development consent under Part 6, Division 8A of the EP&A Regulation.	<ul> <li>19/10/2023:</li> <li>Record sighted:</li> <li>City Plan Services (5 September 2023) Construction Certificate</li> <li>No. 210538-4 (AKA CC2C) for Structure from Podium to Roof</li> <li>City Plan Services (2 June 2023) Construction Certificate No.</li> <li>210538-3 (AKA CC2B) for the structure to podium (Structure above on-ground slab to podium (Buildings A &amp; B Ground Floor +</li> <li>Buildings C &amp; D Level 1)</li> <li>Also sighted and assessed in the previous Audit(s):</li> <li>City Plan Services (15 February 2023) Construction Certificate</li> <li>No. 210538-2 for Structure and in-ground drainage to Basement</li> <li>City Plan Services (21 Sept 2022) Construction Certificate No.</li> <li>210538-1</li> </ul>			
G7	SSD-Mod2			19/10/2023: Record sighted: Remittance advice dated 20 July 2023 for Levy (L0000079478). Total amount paid was observed to be the same as the total levy payable, Indicating that levy has now been paid in full. Also sighted and assessed in the previous Audit(s): Remittance advice or the first and second amount due for Levy (L0000079478), which is for the site, is paid on 1 September 2022 and 25 November 2022 respectively.			
G8	SSD-Mod2		In the event of a dispute between the Applicant and a public authority, in relation to an applicable requirement in this approval or relevant matter relating to the Development, either party may refer the matter to the Planning Secretary for resolution. The Planning Secretary's resolution of the matter must be binding on the parties.	Condition noted			
G9	SSD-Mod2			19/10/2023: Assessed in specific conditions requiring monitoring in this SSD.			
G10	SSD-Mod2		The project may be constructed and operated in stages. Where compliance with conditions is required to be staged due to staged construction or operation, a Staging Report (for either or both construction and operation as the case may be) must be prepared and submitted to the satisfaction of the Planning Secretary. The Staging Report must be submitted to the Planning Secretary no later than one month before the commencement of construction of the first of the proposed stages of construction (or if only staged operation is proposed, one month before the commencement of operation of the first of the proposed stages of operation).	19/10/2023: Interview: Deicorp (RL) stated that development is not staged.
